Dear William Raun,

In the attached report you will find the Student Survey of Instruction (SSI) results for the following course: SOIL5112_29098_LEC-Res Meth Plnt Soil Sci-Raun.

The SSI results report is comprised of the following sections:

• Rank the INSTRUCTOR
• Information about yourself (demographic information reported by the students who completed the survey)
• Rank the INSTRUCTOR
• Views on the COURSE
• Comments Report – text comments submitted by students
• Profile – graphic representations of the averages of each survey question

For a more detailed explanation on the information contained in this survey report, an annotated PDF of a sample report is available on the SSI website at the following link:

http://uat.okstate.edu/sites/default/files/assessPDFs/survey/traditional.pdf

If you have questions or comments please let me know.

Thank you!

Susan Sharpton

Views on the COURSE

I learned a lot in this course.

Definitely No [ ] [ ] [ ] [ ] [ ] [ ] [ ] [ ] [ ] [ ] 1 [ ] n=10

Definitely Yes [ ] [ ] [ ] [ ] [ ] [ ] [ ] [ ] [ ] [ ] 7 [ ]

av.=3.7

md=4

dev.=0.48
Workload was appropriate for the credit hours.

Assignments were relevant and useful.

Testing and evaluation procedures were good.

Students were adequately involved.

This course was worthwhile to me.

Overall, this was a good COURSE.

Please add any comments you wish about the following:

Course
- I learnt a lot from this class. He shared his experience with us in research over the years which was very useful. The class is very relevant.
- I loved the course.
- The course offers a better insight via biometry to analyze and interpret from an agricultural perspective.
  Time allocation of 50 mins seems rather low. May be 1.5 hours would be better to allow for more discussions while not consuming time intended for class contents.

Instructor
- Dr. Raun is very passionate about teaching the class and he always make sure that the class is participatory.
- I like the way of the instructor as it involved students a lot.
- I really learn a lot of new things with regards to how to analyze data and work it using SAS program. The class is also fun because our Professor is very active or alive when he teaches the class.

Instruction

Teaching Assistants / Associates
- Appropriate grading.

Laboratory, Practicum, or Discussion Section

The evaluation will not be displayed due to low response rate.
Work Load
The evaluation will not be displayed due to low response rate.

Examinations
The evaluation will not be displayed due to low response rate.

Grading
The evaluation will not be displayed due to low response rate.

Textbook
The evaluation will not be displayed due to low response rate.

Other Comments
- Thank you Dr. Raun for giving us a free copy of the Dr. Borlaug book. I learned a lot of things from it.
