

Get your Pete's Sheets Today

I have been working on getting the clientele of OSU PaSS Extension Group a new form of educational material. Currently I am working with the Pete's Sheets (PS) idea. Today we have four PS available, at no cost, to any one that wants one. Pete's Sheets are twice the size of a regular business card and fold up into the normal business card size that easily fits in your wallet or pocket. Inside the Nutrient Needs PS you will find the Nitrogen, Phosphorous, and Potassium recommendations for the given crop. The Do's and Don'ts PS gives you the general outline for putting out and reading reference strips. The IPAQ PS basically runs you through of the operations of the IPAQ and GreenSeeker™ and also the instruction on how to download programs onto the IPAQ. If you want any of these PS or if you have an idea for a PS that you want contact your local OSU Extension Agricultural Educator so that he/she can put in a request for the cards. You can request any thing from 1 or 100 PS's, if you need more arrangements can be made. Keep your eyes open as there will be many more of these Pete's Sheets coming out in the future.
